## MANAGED DC SERVICES STACK

# Use Case

## In Multinational Bank Company

### BUSINESS CHALLENGE

- Need to **expand business** in Indonesia.
- **Need to have DC & DRC in Indonesia** to comply with OJK Regulation (POJK no. 38 / 2016).

### REQUIREMENTS

- Colocation of 1 cage for DC & 1 cage for DRC.
- Data Center should be minimum tier III standard.
- Data Center should comply with POJK requirement.
- STS for single power supply equipment.
- BCP Working space (1x in a year) for 40 persons.

### SOLUTIONS

- Colocation for **DC was placed in Technopark Data Center**, while Colocation for **DRC was placed in DRC Jatiluhur**.
- Both Data Centers **were certified as Uptime Tier III Facilities**.
- Technopark DC and DRC Jatiluhur were **already placed in Indonesia**.
- **Provided STS**.
- **Provided BCP Working Space** both in Technopark DC & DRC Jatiluhur.

### BENEFITS

- The client got the complete solution for Data Center & Disaster Recovery Center.
- The solution complied with Global and Local Data Center Standard (UPTIME Tier III Facility, ISO 27001, ISO 20000, PCI DSS, TVRA, etc).
- The client got certified people to operate data center facility.

The background of the image is a server room. It features multiple rows of server racks. The racks are filled with various electronic components, and some have small indicator lights. The room is dimly lit, with a strong blue glow emanating from the racks and the floor, creating a high-tech, futuristic atmosphere. The perspective is from a low angle, looking down the length of the server aisle.

Since 1988, Lintasarta is supported by advanced technology and personalized approach to empower your future.
